

Step 2

Planning your implementation

4 steps to implement

Get started

- Implementation schedule

Scope and planning

Getting the data

Publish

- Organisation and Activities files

[✓] Starting to publish IATI

Key topics

- About your organisation
- Why you want to publish IATI
- What you know already

Tools

- Implementation schedule
- Persona
- Customer Journey

[] Planning your publication

Key topics

- About your team
- Defining an “activity” in your organisation
- Reasons not to publish activities
- Coverage of activities
- Permissions and licenses

Tools

- Implementation schedule
- Planning Template
- Project Information Template

With whom do you share information now?

Write down cases for your organisation:

- Who has the information?
- Who needs it?
- Who compiles it?
- What is the “unit” of information?
- Is it easy or hard?

With whom do you share information now?

What the cases help you with:

- Define what an “IATI activity” is for your organisation
- Assemble your team of relevant stakeholders
- Understand how IATI data can be used in your organisation
