

IATI Data Source #...

Specify the name of a database, spreadsheet, or information system where one or more elements of your IATI data are stored:

Which department or officer is the “owner” of this system?

How is the data entered into this system? (Who does it? Are there procedures, responsibilities, trainings involved? How timely is it?)

Is the data in the right format? What changes are needed? (Technical changes, new guidelines or instructions for people entering the data, shift of responsibilities, updated procedures and timelines, ...)

Other notes:
