

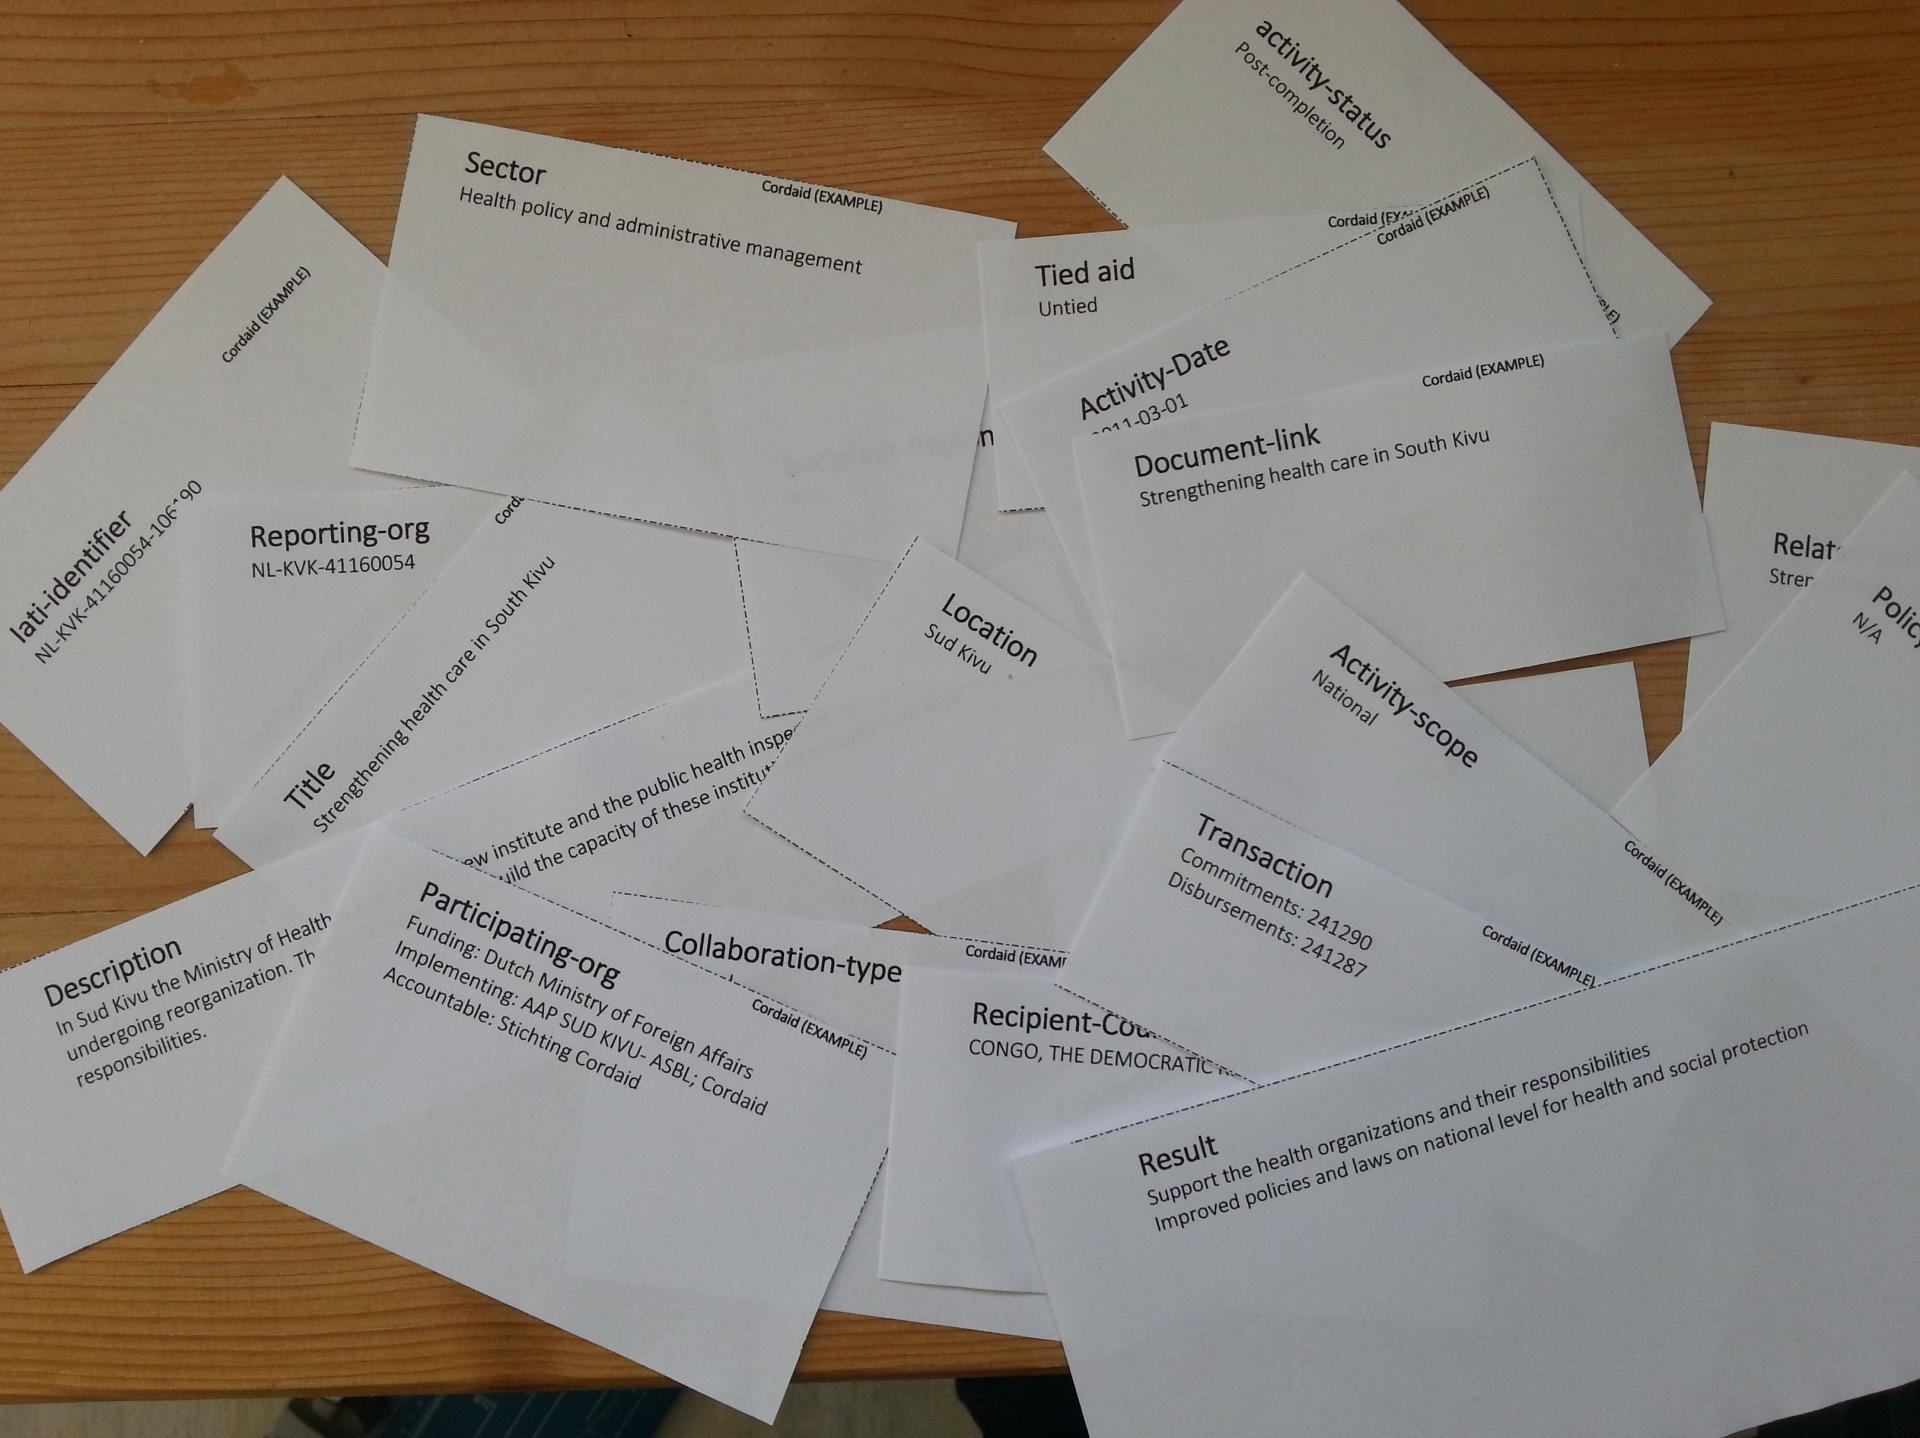

Mapping your data

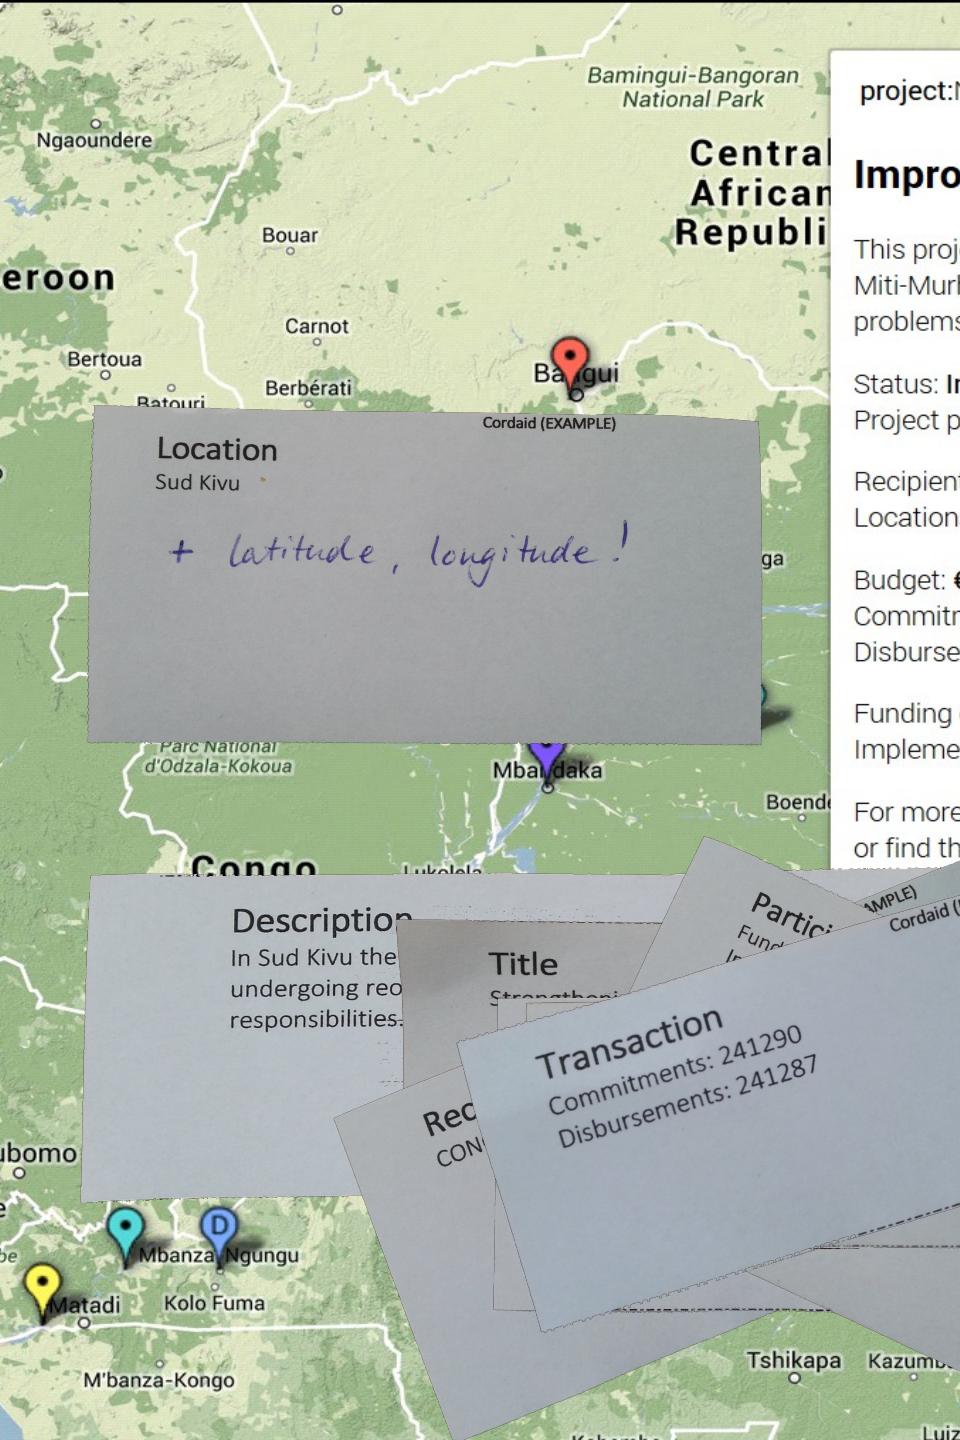

16 October 2014

How to use your IATI data

The collage illustrates various ways to interact with IATI data:

- Disbursements 2103**: A pie chart showing the distribution of aid disbursements across countries.
- Oxfam Novib Atlas**: A screenshot of a web interface showing a world map with project locations highlighted in green and orange.
- ATLAS**: A screenshot of a search and filter interface with fields for "send a cow", "All AIMs", "All Interventions", and "All Regions".
- Cordaid**: A screenshot of a project page for "HEALTHCARE 2014 BANGLADESH IMPROVING MATERNAL AND NEONATAL HEALTH". It shows a photo of a health worker providing advice to a pregnant woman.
- Project Details**: A detailed view of a project's financial and partner information.
- Project Updates**: A section showing recent updates for the project.
- Tools for this project**: Options to log in, add an update, or embed the project.

A map of Lake Tanganyika's eastern shore, showing the countries of Tanzania, Burundi, and Rwanda. The map highlights the following locations: Kigoma, Kazuramimba, Mpanda, Uyovu, Butare Province, Kalemie, and FIZL. The lake is shown as a blue body of water, and the surrounding land is green. Several location markers are placed on the map, including yellow, red, and blue pins.

Quality matters...

What quality should your data have?

- Is it available?
- Well written?
- Understandable?
- Timely?
- Accurate?
- Complete?
-

Now make your own!

- Take 1 or 2 communication materials
- Which data elements do you need?
- Do you have them? And in the right format?
